It is indeed a privilege and great honor that I have been assigned National Vice President for your Chapter.

Congratulation to President JC Vincent Yu and Board of Directors for bringing JCI Bukit Mertajam to another greater height.

President JC Vincent is one of the most experiences President among all the Chapters in Area Peninsular. I'm impressed that your Charity Food Fair has managed to raise RM 10,500 in aid for few charity homes. It is definitely a big challenge to raise such a huge amount in a day.

My best wish to Candidate President 2006, JC Ryan Goh. I'm sure he will continue to scale greater heights and greater accomplishment for JCI Bukit Mertajam for year 2006.

BM Success Trial

This project is first in its kind that JCI BM had ever organise before and I am honored to be the Organising Chairman for BM Success Trial.

The youth nowadays faces more challenges than previous. In view of rapid technology and social development, these young generations are exposing to bigger treat of falling into social problem if they were not guided properly. One of the problem faces by the youth is the lack of focus and direction in their life. The external bad influences are much more appealing to them as they are too weak within themselves to control those bad influences.

Youth is the future of the nation, if they are not well equip with what they are suppose to have, chances are they may not be able to compete in more competitive world and challenges in future.

“Bukit Mertajam Success Trial” aims to provide young people with a mentor of learning from the successful personalities. This will also expose them to many great successful people and that they may become their idol of life. This project also set to acknowledge the successful personality in different fields of industry whose homeland is in BM. And last but not lease, to expose the movement of JCI BM to youth, general public and corporate individual.

In achieving the objectives of the project, all the candidates selected will be interviewed and contents will be compiled and publish in a book which will be distributed to library, school and public places. Further to that, we will also broadcast the interview session in online radio called “Podcast”. We also approached Kwong Wah Yit Poh on the benefit of the project to the youth and they will publish the interview in their dailies if found the contents is beneficial.

To the committee and members of JCI BM, this is a great opportunity for us to gain much more from this types of project. We learn by doing and we will growth by continuous learning.

Upgrading of Secretariat

In last edition, we been informed all our members that we are upgrading our secretariat to serve them better. During our second phase of cleaning of secretariat, we found that the secretariat have a quite serious white ant problem. Few days after the second cleaning, we manage to settle the issue.

Now we are waiting for the 3rd phase of cleaning to make it the final cleaning. Currently, the training room is really and done. You can see it from above photo how it look like now. It have a proper design setup of the meeting styles and also will have a better seminar setup.
